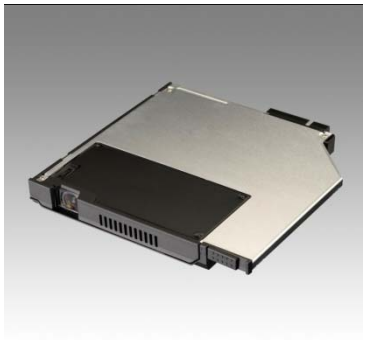
Fujitsu Bay Projector for LIFEBOOK S761 and LIFEBOOK P771

The First Bay Projector to Insert in the Modular Bay

The Fujitsu Bay Projector is the first projector which can be inserted in the modular bay of a notebook. The patented projector offers mobility and convenience in the office as well as at home. As a business notebook user you might know the scenario of arriving at an important meeting ready to give a presentation, only to discover that the projector is broken, missing or just won't work with your notebook. The Bay Projector solves that problem for you and converts your notebook into a fully-mobile office, granting you the flexibility you demand. Show your colleagues the latest figures, videos and illustrations and profit from spontaneous presentations without cables, simplifying your way of working. When on the move or at home, you can easily benefit from the projector as a personal cinema.

Easy application for more convenience

- Just insert the Bay Projector in the modular bay
- Lense and bulb have to be folded out and clicked into place
- Ready to use in seconds
- No external projector or cables required



Usability

- Low weight of only 210 g
- Works on almost every surface
- Low power consumption and noise level
- Compatible with Windows XP, Windows Vista and Windows 7
- Long durability

Ergonomics

- Brightness and keystone correction
- High contrast and color depth
- 40 ANSI lumens for best visual experience
- Non-hazardous laser (Laser class I)
