DATA SHEET

USB-C Travel Dock with Hub

Connect a USB-C device to a display while connecting to two USB devices and wired Ethernet

OVERVIEW

The USB-C Travel Dock with Hub is the perfect solution for connecting a USB-C computer to an HDMI, DisplayPort, or VGA display when in the office or on the go. Supporting HDMI and DisplayPort resolutions up to 4K at 60Hz--while also providing Gigabit Ethernet—enables the USB-C Travel Dock with Hub to meet your connectivity needs and handle critical tasks so that you can rest easy knowing that you have the connection you need. The included USB-C Hub has 2 USB-A ports and a RJ45 Gigabit Ethernet port. Simply connect the hub to the travel dock to ensure you're prepared for the big presentation.

The Travel Dock is a great means to connect to nearly any display for that big meeting or presentation. The Dock is purposefully engineered to allow a USB-C enabled computer or tablet to connect to a display with HDMI, VGA, or DisplayPort inputs and features a USB Type-C port with power delivery.

The USB-C Connectivity Hub brings additional connections to the Travel Dock to meet all connectivity needs. The Hub is equipped with a USB-C port for plugging in mobile devices, two USB-A ports for connecting peripherals or portable storage, and an RJ-45 port for Gigabit Ethernet. Connect a USB-C power source to the Travel Dock to provide the necessary power for the Hub to function.

FEATURES

- Tethered USB-C Male cable for easy connection

- USB-C capability—a reversible, high-power connection

- Maximum VGA resolution: 2048x1536

- HDMI and DisplayPort support up to 4K60

- Gigabit Ethernet

ITEM DESCRIPTION

82392   USB-C Travel Dock with Hub

designed to be better.™
